

If you're having trouble accessing any of our content or using our website features, email us at info@superdex.com.

We'll make every reasonable effort to address the problem. We may offer you alternative methods for obtaining the content if we're unable to provide a web-based solution to your request.

Index Technologies Group's Accessibility Pledge

ITG is working to improve the accessibility of our website, allowing individuals with disabilities to access relevant information regarding our company and its products and services. While most of our customers are businesses, we're seeking to meet additional obligations under the Americans with Disabilities Act and other accessibility laws, as applicable. We're working toward meeting the Web Content Accessibility Guidelines (WCAG) 2.1 AA standards.

We understand that individuals with varying disabilities may seek information on our website, and it's our goal to provide them access to our content, features, and functions. While we're making progress, we recognize that some content, features, or functions may not be available on all devices and programs.

711 for Telecommunications Relay Service

Telecommunications Relay Services permit persons with a hearing or speech disability to use the telephone system via a text telephone (TTY) or other device to call persons with or without such disabilities.

To make using TRS as simple as possible, clients can dial 711 to connect automatically to a TRS operator. This number allows both voice and TRS users to initiate a call from any telephone, anywhere in the United States.
